Ingenium, Inc. structural engineers

At Ingenium, Inc. – we know structures. With over 50 years of combined individual experience, we have engineered an incredibly diverse range of projects and major structures all across the United States and abroad.

A minority-owned firm located in Houston, Ingenium's goal is to provide each client with a cost effective structural system that is easy to construct and economical to build. We provide innovative solutions to every challenge we encounter. Ingenium works in partnership with the visions of owners and architects to create sustainable landmark projects.

PEOPLE

H. (Anu) Mahendra, P.E.

With over 30 years of experience in the planning and design of structural systems, he has the ability to handle complex projects with tight budget and time constraints. This is done with consistent communication and accountability through all stages of project development. Anu's design experience includes office buildings, parking structures, airport terminals and institutional buildings. His experience also includes the structural design of over 50 hotel projects throughout the United States. Projects include the Grand Hyatt Hotel in Atlanta, George Bush Intercontinental Airport Terminal A Addition in Houston, Ronald Reagan National Airport Terminal Addition in Washington, D.C. and the Lone Star College, Cy-Fair Campus in Cypress, Texas.
